PROFILE

A high school student with a passion and skill for almost everything related to technology. I'm highly dedicated to programming and love building software that entertains or makes things convenient for others. Trusted with my school's automatic bell system, I'm always motivated and devoted to every task given to me, and is determined to complete said tasks with full persistence.

EDUCATION

High School, Sekolah Bukit Sion   Jakarta

2018 - 2021

Completed High School at Sekolah Bukit Sion

Undergraduate, Universitas Bina Nusantara   Jakarta

2021 - Present

Ongoing Computer Science studies at BINUS, currently at 4th semester.

EXTRA-CURRICULAR ACTIVITIES

Leo Club   Jakarta
September 2018 – Present

A non-profit organization branch for teenagers and young adults from Lions Club, which is an organization that mainly focuses on helping people. (Natural disasters casualties, Fundraising, etc…)

School Photographer
October 2019 – 2021

Part of my school's journalism team. I took pictures of school events, and competitions my school went to.

OSIS
2016 – 2019

Head of OSIS during middle school
Department of Social Communication during high school
